Work Experience

○ HASHEDIN BY DELOITTE
Jun 2022 - present

Software Development Engineer-2

- **Led end-to-end development of high-performance, consumer-facing web applications**, utilizing **JavaScript**, **HTML5**, **CSS3**, and **React.js** to deliver seamless user experiences at scale.
- **Implemented SSO** to streamline user access and reduce login-related support requests.
- **Delivered a transcript feature** to cut meeting recap time and improve accessibility and sharing.
- **Collaborated with backend developers and product owners** to decompose complex **UI/UX flows** into actionable tasks, ensuring timely delivery of features and alignment with business requirements.
- **Participated actively in design and code reviews**, ensuring a robust and maintainable codebase while promoting best practices across the development team.
- **Mentored junior engineers**, providing guidance on coding practices, design patterns, and application architecture to help elevate team standards and foster growth.
- **Optimized front-end performance** by leveraging browser internals and network stack knowledge, identifying bottlenecks and improving load times by up to **30%**.
- **Designed and implemented responsive UI components** for a wide range of devices, ensuring a consistent experience across desktop, tablet, and mobile platforms.

○ TATA CONSULTANCY SERVICES
Nov 2020 - May 2022
1.6 Years

Frontend Developer

- Design easy user interfaces and great user experiences for the digital platforms for Pfizer.
- **Developed and maintained web applications** that met high availability and scalability requirements, ensuring the UI could handle significant traffic spikes during major sales and promotions.
- **Proactively identified hidden problems** and inefficiencies in data handling, using analytical skills to drive improvements to system architecture and enhance software hygiene.
- **Contributed to the application's security practices**, addressing vulnerabilities and ensuring that front-end deployment adhered to best security standards.

Key Projects / Involvements

- **Ensured adherence to common design patterns** in the front-end ecosystem, leading the creation of standardized UI components and development practices for future scalability.
- Contributed to the enhancement of open-source tools and frameworks, experimenting with cutting-edge technologies to continuously improve internal development processes.
- **Improved code quality and test coverage** across critical components by implementing **visual regression testing** and **unit testing**, achieving a **80% test coverage rate**.
- Played a critical role in migrating a legacy application to a modern React-based platform, improving maintainability and reducing development time by **20%**.
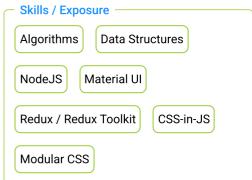

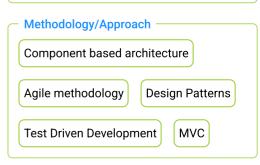

Certificates and Awards

- Meta Front-End Developer
- GCP Professional Cloud Developer

Summary

Frontend developer with 5+ years delivering accessible, high-performance web applications. Strong design sensibility and backend familiarity; focused on maintainable code, measurable outcomes, and fast product iteration.

Technical expertise

- JavaScript
- TypeScript
- HTML5
- CSS3
- React / ReactJS
- React Native
- Next JS
- Apollo GraphQL

Skills / Exposure

- Algorithms
- Data Structures
- NodeJS
- Material UI
- Redux / Redux Toolkit
- CSS-in-JS
- Modular CSS

Methodology/Approach

- Component based architecture
- Agile methodology
- Design Patterns
- Test Driven Development
- MVC

Tools

- Git
- VS Code
- Jira
- Postman
- Chrome DevTools
- Lighthouse

Education

B Tech - Electronics and Communication Engineering
Anantha Lakshmi Institute of Technology and Sciences, Anantapur
Jun 2017 - Sep 2020

Diploma - Electronics and Communication Engineering
Sree Vidyanikethan Engineering College, Tirupathi
May 2014 - May 2017
